Summary

Computer Science and Engineering student with a strong foundation in Python, C, Java, and web development. Interested in software development and building practical, real-world applications. Currently expanding skills in Java, Data Structures & Algorithms, Object-Oriented Programming, and full-stack development through academic coursework and hands-on projects.

Education

•B.P. Poddar Institute of Management & Technology *Aug 2024 – Present*
B.Tech in Computer Science and Engineering Kolkata

•AISSCE – Class XII *Apr 2022 – Mar 2024*

•AISSE – Class X *Apr 2020 – Mar 2022*

Experience

•Gexart Technologies *Aug 2026 – Present*
Data Engineering Intern

– Working on data engineering and analytics solutions for large-scale FMCG and retail datasets.
– Developing ETL pipelines and data workflows for processing, transforming, and loading structured business data.
– Working with PostgreSQL and ClickHouse for data storage, warehousing, and high-performance analytical queries.
– Developing backend APIs and contributing to data-driven web applications and analytics platforms.

•Google Developer Group on Campus BPPIMT *Sep 2025 – Aug 2026*
Junior Member – Cloud Team

– Supported Google Cloud Study Jam through campaign promotion and technical content.
– Mentored participants and assisted with their learning activities.

Projects

•Chalchitra-AI – AI-Powered Movie Recommendation System *Aug 2025 – Sep 2025*

– Built a movie recommender using TF-IDF and cosine similarity, with search and rating-based ranking.
– Created a multi-page Streamlit app with dynamic filters and TMDB movie posters.

•Mandi-Mitra – Agricultural Market Intelligence Platform *Sep 2026 – Present*

– Developing mandi price insights, historical trends, and agricultural market analysis.
– Built data pipelines and APIs; integrated an AI chatbot for natural-language market data queries.

Technical Skills

Programming Languages: Python, C, Java
Web Development: HTML, CSS, JavaScript, TypeScript
Backend & APIs: Node.js, Express.js, REST APIs
Data & Tools: PostgreSQL, ClickHouse, Docker, Git, GitHub, VS Code, Antigravity, Render, Postman
Core CS: Object-Oriented Programming, Data Structures & Algorithms, Operating Systems
Soft Skills: Communication, Teamwork, Problem Solving, Leadership

Certifications

•Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

•Python Data Structures University of Michigan

Languages

English, Hindi
